* Does not include the impact of the current statute CY 2010 negative update except as applied in the OPPS imaging cap comparison (see next footnote). Rows may not sum to total due to rounding.

** Note: The statute caps the PFS imaging payment amount at the comparable payment amount in the hospital outpatient prospective payment system (OPPS) cap. In the absence of the negative update under current statute for CY 2010 PFS, the proposed fully implemented PE change to the equipment utilization rate for expensive diagnostic equipment from 50 percent to 90 percent would increase expenditures by less than 1 percent due to a loss of savings from the OPPS cap.
